Elbert County Building Department Building Valuation Table and Fee Schedule
ICC BVD - August 2018

Building valuations shall be determined using information from the most recent Elbert County adopted ICC Building Valuation Data.The final building permit valuation shall be set by the building official. Based on the determined value, the permit fee will be calculated using the valuations portion of 1997 UBC, Table 1-A, plus a plan review fee that is 65% the cost of the permit fee, plus a use tax fee that is 1% of the determined valuation.
Ex: Permit fee (based on valutation) + Plan review fee (65% of permit fee) + Use Tax (1% of total valuation) = Total permit fee

To use this table:
Take the cost per square foot times the floor area to determine the valuation. Include garages and decks.

Land Dedications

Open Space/Land Dedication

- Cash-in-Lieu Formula = (Appraised Value of total acreage based upon approved Preliminary Plat or proposed Final Plat) x 10% + $1,000 per lot
  - Example: Assuming vacant land (if there is an existing home that lot is excluded) is subdivided into 4 lots and each individual lot has a value of $165,000:
    - Improved appraised value (1 Lot) $165,000
    - Multiplied by 10% (0.1)
    - Plus flat fee of $1,000 per lot

($165,000.00)(0.1) + $1,000 = $17,500.00 (1 Lot)

$17,500(4) = $70,000 (4 Lot Vacant Subdivision)

  - Paid prior to recording of the Final Plat
  - Appraisal must be prepared by a Member of the Appraiser Institute (MAI) or by an Accredited Rural Appraiser (ARA) and must be current within 6 months of approval
  - No more than 10% of the required open space will be allowed to be created with cash-in-lieu fees
  - Developments of 80 acres or less are required to pay cash-in-lieu rather than land dedication
    - At the request of the applicant this formula may be utilized on projects totaling up to 160 acres
- Cash-in-Lieu or land dedication as negotiated by the applicant with the appropriate entity for:
  - Schools;
  - Fire Protection Districts;
  - Parks Districts
