Elbert County Community and Development Services

You must submit a site plan, along with the attached document, for approval through the Community and Development Services Department **before submitting an application for a building permit.** Elbert County may request that you submit a site plan that is stamped by a licensed surveyor if there are any concerns with slope, floodplain, or no build areas.

Upon site plan approval, you will turn your site plan, and the attached document containing approval signature, to the Building Department at the time you submit your building permit application.

This is referred to as the **Community and Development Services Sign off Sheet** on the building permit checklist.

A site plan is not required if your project does not change the footprint of a structure (basement finish, like for like deck replacement, etc.) **however**, the attached document must still be reviewed and approved by Community & Development services for compliance with zoning. For basement and other interior finishes, you must supply CDS with a drawing of the layout of your project, including labeled rooms and uses.

Your detailed site plan MUST include:

1. Address of property
2. North arrow
3. All streets adjacent to the property
4. All easements, no build, flood plain, slopes of greater than 20%,
All existing structures AND proposed structure
5. The distance of the proposed structure from the property boundaries
6. Driveway slope, width and location (for new residences)
